

The New City Officers

The city officers elected on April 3, met and organized last Monday evening at the office of C. V. Mantt. Though the appointees do not go out of office until the first meeting in May, it was decided that Dr. A. L. Knisley will be the new city health officer, Mrs. J. Karau the city clerk and E. J. Thayer the new city treasurer. The appointment of the marshal has not been definitely decided. The matter of a number of street lights to give Liberal a white way up Kansas Ave. and Second St. was discussed, and it is probable that some action will be taken at the next meeting. It was conceded that some changes would be made at once in the pumping machinery at the city plant, to give better service with the old equipment. The new council started off in the right direction by appointing a committee for securing a dumping ground for the city refuse.

The W. C. T. U. of Liberal at its last meeting at Mrs. Molter's home decided to undertake to beautify the cemetery. They are going to try to fill it in put in a well and then plant trees and flowers. Mrs. Wilmarth and Mrs. Moore were appointed a committee to begin operations at once. The gentlemen will be called upon in the near future for financial aid.

THE WEAK POINT

About most wheel implements is the oiling device.

This is admitted by all implement makers, and they are all making so-called "Dust Proof Boxes" to overcome the trouble.

"Old Man Brown" as the boys call him, who has been with the John Deere Plow Co., for twenty-five years says: "The only way to make a Dust Proof Box is to make it right in the first place, then fill it and keep it so full of good hard oil that bust and sand can't get in."

That was well said. So far, no one has made a box that will absolutely keep out the dust any other way, but it may be so well made that it can be kept oozing over with grease. When the dust touches this it becomes mud, but can not work into the box.

Deere Wheel tools have screw caps at the outer ends of the boxes, and flanged collars at the inner ends. This wheel is found on Cultivators, and Gang Plows and Listers. It is a

Who Knows Laura Rhoads?

About twenty-five years ago my father, Israel Rhoads, now dead, gave my infant sister, Laura, at my mother's death, to Mr. and Mrs. Samuel Robinson at Wooddale, Kansas, for adoption. The Robinsons left there shortly after and the whereabouts of the child since then have been unknown to us. The remaining family of six children would deem it a great favor if anyone knowing their whereabouts would kindly write to me. MRS. GEORGE E. GANO, (formerly Susie Rhoads) Ellis, Kansas.
